

Leadership Acceleration

A 90-day journey that builds the leadership capability, narrative and organisational conditions for AI to generate real returns in your business and help your people thrive.

| | | |
|--|--|---|
| 88% of organisations are now using AI in at least one business function | 26% have moved beyond proof of concept to generate real returns | 25% of employees believe their leaders are transparent about AI's impact |
|--|--|---|

THE JOURNEY

| | | | |
|--|--|---|--|
| WEEKS -4 TO 0 Diagnosis AIEQ assessment across eight dimensions. Curated provocations. Identify a real workflow challenge. | DAY 1 See it clearly Immersive workshop. AI landscape, identity, judgement. Flex content from assessment. Design experiment 1. | WEEKS 2-5 Sprint 1 Real-world experimentation. AI on actual problems. New leadership behaviours. Tracked and coached. | DAY 2 Lead it differently Sprint review. Build your AI philosophy. Storytelling. Systemic levers. Design experiment 2. |
| WEEKS 7-10 Sprint 2 Deeper experimentation. Scaling what works. Tackling harder problems. Building narrative muscle. | DAY 3 Make it stick Impact review. Storybook curation. Playbook. Roadmap and commitments that outlast the programme. | WEEK 12+ Ongoing Ongoing AIEQ tracking. Coaching check-ins. Quarterly re-assessment and intervention. | |

WHAT MAKES THIS DIFFERENT

| | |
|--|--|
|  Shaped by diagnosis, not assumptions Every programme is built from your AIEQ data. Eight dimensions of human AI readiness. Your real gaps. No generic content. |  Learning happens in the real world Experimentation sprints between each workshop. Leaders test new behaviours and AI on actual problems in their day jobs. |
|  Capability that outlives us You keep the playbook, the storybook, the AI philosophy. Built by your leaders. Usable without us in the room. |  Focused on the topics we should be talking about Evolving identity. Collective intelligence and judgement. This is more than your standard leadership programme. |

// *Most consultancies leave behind a deck. We leave behind a book of your own stories.*

WHAT LEADERS LEAVE WITH

| | | |
|--------------------------|--------------------|----------------------|
| AIEQ capability | AI philosophy | Leadership playbook |
| Storybook of experiments | AIEQ impact report | Personal commitments |

WORKS STANDALONE. STRONGER WHEN COMBINED.

| | | |
|---|--|---|
| Leadership Acceleration Develop the capability and conditions for AI to generate real returns in your business and help your people thrive. | Execution Velocity Build the narrative and operating rhythm your transformation team needs to deliver impact and bring the organisation with them. | Workforce Adoption Move teams from anxiety to ownership and build confidence through experimentation to prove the case for scale. |
